

Neurological Physiotherapy and Rehabilitation

NEUROLOGICAL REHABILITATION is a complex medical process which aims to aid recovery from a nervous system injury and to minimize and/or compensate any functional alterations resulting from it.

NEUROLOGICAL PHYSIOTHERAPY is the treatment of individuals who have

PROGRESSIVE CARE is an independent researcher and service provider of Speciality Neurological Physiotherapy and Rehabilitation. With an expert team of Physiotherapists fully trained and equipped to provide the best service possible,

What do We Treat?

ders, not limited to

- - Traumatic Brain Injury
 Traumatic Spinal Cord Injury
- STROKE
- NERVE PALSIES
 - Bell's Palsy
 - Brachial Plexus Injuries
 - Foot Drop
 - Carpal Tunnel Syndrome Thoracic Outlet Syndrome
 - Trigeminal Neuralgia
- **BRAIN AND SPINAL TUMOURS**
- SPINAL CORD SYNDROMES
- VESTIBULAR DISORDERS
- INFECTIONS OF BRAIN AND SPINE
 - Meningitis
 - Pott's Spine
 - · Arachnoiditis
 - NEUROMUSCULAR JUNCTION DISORDERS

 Myasthenia Gravis

 - Lambert Eaton Myasthenic Syndrome
 - Botulinum Toxin
 - NEURODEGENERATIVE DISORDERS Parkinson's Disease
 - Motor Neuron DiseaseGuillian Barre Syndrome · Alzheimer's Disease
 - Dementia
 - Ataxia
 - Cerebellar & Spinocerebellar Degeneration

Speciality Equipment Available at Progressive Care

- Class III B laser
- Pressure Feedback
- EMG Biofeedback
- Functional Electrical Stimulation
- Vacuum Therapy
- Other Electrotherapy Modalities
 - Play Therapy
 - Suspend Gait Trainer
- Ramp Assisted Parallel Bar
- Suspension Therapy
- Taping
- DEMYELINATING DISEASES OF BRAIN AND SPINAL CORD
 - Multiple Sclerosis • Transverse Myelitis
 - Acute Disseminated Encephalomyelitis
 - COGNITIVE, BALANCE AND COORDINATION DISORDERS
- OTHER NEUROLOGICAL DISORDERS LIKE
 - Cerebral Aneurysms
 Cerebral Atrophy
 - Complex Regional Pain Syndrome
 - Myopathies
 - · Dandy walker Syndrome • Peripheral Neuropathies
 - Epilepsy
 - Syringomyelia
